

LOOKING FOR A PARTNER to outsource your testing requirements?

Algol Chemicals India Private Limited, part of the Algol Chemicals Group (Finland), can cater to your testing requirements in accordance with various regulations, such as EU REACH, Biocides, Cosmetics, Agrochemical, Pharma and US TSCA, to help you meet your deadlines smoothly and cost efficiently.

Algol Chemicals India introduced regulatory services in 2008 after the EU's REACH Regulation entered into force. Our team carries over a decade of experience in handling REACH technicalities and outsourcing laboratory testing services to our European partners. Our highly qualified and committed team of professionals offers you not only in-depth knowledge of local industry needs and a good relationship with key local players, but also an efficient pool of resources that can be scaled up as needed.

In collaboration with well-known Indian GLP laboratories, we offer high-quality testing services required under REACH, Biocides, Cosmetics, Plant Protection, Pharmaceuticals and other regulations, we are also dealing with toxicological studies, as per OECD, OPPTS, CIPAC, ABNT and other guidelines. Our advantage of being situated close to these. Laboratories allow us to visit these facilities on a regular basis and to negotiate very good rates for our European partners compared to testing conducted at their local labs. In many cases, substantial cost savings can be achieved by conducting laboratory testing through Indian labs.

State-of-the-art Indian laboratories comply with global norms and are equipped with modern instruments featuring electronic data capture facilities audited by multiple regulatory authorities.

They have completed successfully more than 10,000 regulatory studies and submitted them to regulatory agencies around the globe. All studies conducted are in accordance with the regulatory requirements of the EMA, US FDA, ICH, OECD, JMAFF, and OCSPP. Our professionalism and exceptional customer-oriented skills have given us a competitive edge and we have become the chosen outsourcing partner for a diverse set of customers. Their field of expertise includes Analytical, Phys/Chem, Toxicology, Ecotoxicology, Chemistry, Environmental Fate and Metabolism, and other regulatory testing requirements. These laboratories have all the necessary certifications available, including GLP, EMA, US FDA, ICH, OECD, JMAFF and OCSPP. The industries catered to include Biocides, Chemicals, Flavors & Fragrances, Cosmetics, Agrochemicals, Polymers, Petrochemicals, Nutraceuticals and others.

We have also submitted more than 1100 pre-registrations, 60+ registrations and 150+ CLP notifications. We have expertise in preparing and updating safety data sheets as per REACH/CLP inquiry dossiers and biocides registrations. In addition, we assist companies in providing high-value market research reports that help to identify new market opportunities, growth factors and contemporary ways to capture market share along with consultation for Toll Manufacturing facilities from India.

WE WOULD BE HAPPY TO DISCUSS THESE OPPORTUNITIES WITH YOU IN MORE DETAIL

ALGOL CHEMICALS PVT LTD.

6B, 6th Floor | Uppal's M6 | Jasola district centre | New Delhi - 110025 | India

Algol Chemicals is part of the Finnish family-owned Algol Group headquartered in Espoo, Finland. Algol established its operations in 1894.

Algol Chemicals connects manufacturers of industrial raw materials to industrial customers by offering value-added services, tailored deliveries and expert product know-how. We source our products globally and serve our customers locally. Thousands of globally sourced, REACH compliant products are delivered to our customers directly from local warehouses. Each year we are responsible for around 40 000 product deliveries. We provide our services to over 3000 industrial companies throughout Finland, the Nordic and Baltic regions, Belarus, Ukraine and India.

Our mission is to connect our customers and suppliers in a value-adding and responsible way. Thanks to our skilled personnel we can provide local best market expertise. Our goal is to enable business growth for our customers and suppliers with new solutions. It is our common aim to deliver long-term partnerships with principals and customers.
